

FOUR SIMPLE STEPS FOR ENJOYING BRITISH COLUMBIA

Welcome to our home. We're glad you're spending time with us. Stay as long you like but please follow these simple steps to ensure your visit is both enjoyable and memorable for you and the locals.

1. Keep the 'Wild' in Wildlife

Whether you're hiking, camping or a day visitor to an area that is home to wildlife, remember to properly store any food to avoid attracting bears and other animals. And don't feed wildlife either. After-all, no one wants any human or animal casualties.

2. Pack it in, Pack it out

If you brought it with you, take it back, including litter. Leave the places you visit better than the way you found them and you'll be welcome to return anytime.

3. Be Prepared – Have a Plan

Heading outdoors? Ensure you're not only prepared for the elements and changing conditions, but that someone knows where you're going and when to expect you back.

4. Prevent Wildfires

Help us protect BC's forests by respecting fire bans, properly extinguishing allowable campfires, and responsibly disposing of all smoking materials.
